EPSC Webinar

Friday 20th March 2020

14.00 – 15.00 (CET)

13.00 – 14.00 (GMT)

EPSC

EPSC webinars facilitated by knowledgeable solution providers offers the opportunity to learn on a specific safety topic.

Register by sending an email to office@EPSC.be (You will receive a link to join)

A Strategic Approach to Occupied Building Risk Assessment (OBRA)

Ensuring safety of personnel at hazardous sites is paramount.

Conducting an OBRA using a consistent methodology and set of criteria allows companies to systematically manage risk in a reasoned and cost effective manner.

Aspects to be Discussed

- Risk Management Program Drivers and Objectives
- Objective and Unbiased Approach to Assessment of Hazards
- Building Risk Assessment Process
- Interpreting Risk Results
- Identifying Risk Mitigation Options (Cost Benefit Analysis / Site Interruption Determination)
- Prioritising buildings for risk reduction within the program
- Evaluating path forward – replace, upgrade, shift population, etc.
- Design development and implementation

Risk Based Building Upgrade
